Observations:

- length of the story (too long- ½ minutes max.)
- Voice over reduction
- Show visual scenes
- Style of the chess piece (not so cartoonish)
- Storyboard
- Prompts really specific
- We can change the Ai story

“Queens Don’t Quit”

- A short film told from the perspective of the golden chess queen sitting on a nightstand.
- The Queen narrates with wit and wisdom, turning life into a playful chess metaphor.
- We follow a young woman in everyday situations — cooking mishaps, funny moments, and casual game nights.
- Instead of sadness, the film uses humor and lighthearted AI visuals to explore resilience and decision-making.
    - AI tools: AI images generator (film poster) and AI video generator (film itself)
    - Visual style: real-world scenes with AI-enhanced chess metaphors like glowing moves and floating thought bubbles.
    - Tone: uplifting, entertaining, and imaginative.
